THINK OUT OF THE BOX.
THINK MEDIABOX.

DISCOVER THE ALL-IN-ONE SOLUTION.

THIS BOX HAS EVERYTHING!

ONE BOX, COUNTLESS POSSIBILITIES.

Discover all the benefits of mediabox.
A winning combination.

Our flexible all-in-one mediabox solution has everything you need to take your video production to the next level.

> A **perfectly tailored MAM and storage solution for a professional video workflow**

> Unique, **low-cost combined solution** compared to individual solutions

> **Simple setup** thanks to pre-installed version of medialoopster

> Efficient usage and management of media content

> **Flexible** usage in different locations

> Expandable/scalable as required

One for all: mediabox.

The all-in-one mediabox solution was designed for a broad target audience. For small and medium-sized companies that need a fully fledged production system, but have limited funds available. Also for larger companies looking to expand their systems or in need of a standalone solution for a short-term project.

Pre-installed: medialoopster.

Benefits of our MAM system:

> **Intuitive operation**
> **Rapid workflows**
> **Connection to AI services**
> **Collaboration**
> **Real-time access to media data**
> **Rough-cut editor, and many more.**

Updated 10/2022

It's as easy as this.
Connect. Click. Get started.

mediabox is not just extremely simple to set up, but is also very easy to use and maintain.

> **Plug and play:** after switching on, there is minimal configuration needed and you can get started straight away

> **Independent of infrastructure:** no technical in-house support or separate server room required

> **Configurable via web GUI:** an intuitive web GUI enables server administration, backup routines and comprehensive monitoring

> **Non-proprietary:** the solution can be easily scaled and upgraded in the future

Incredibly practical, unbeatably flexible.

To ensure that our mediabox meets your company's needs, we focused a lot on flexibility during the design – our mediabox can be customised in many ways:

> **Storage size can be scaled** up to 400 TB
> **Customisable number of users** – up to several hundred
> **Different mediabox models** for every need – from the SSD Performance model to models featuring an LTO connection and silent case models
> **Expandable with additional components**
> Can be connected to **up to 6 Adobe Premiere Pro editing suites without any additional infrastructure (switches, etc.)**

DO YOU THINK
MEDIABOX?

WE LOOK FORWARD
TO HEARING FROM YOU.
THE MEDIABOX TEAM

About nachtblau
